A LITTLE ABOUT US

Being educated from one of the premier institutions in
India, IIT Madras, we feel that it's our responsiblity to
give back something to the society. We, engineering
graduates, chose technology over anything else,
hoping to make a change. Our aim is to help schools
turn smart by well utilising the scope of most modern
technology. We charge only operational and
maintanance costs and thus keep it achievable for
every schools.

Smart School, Smart People

GET ACCELERATE, MAKE A DIGITAL IDENTITY

WHAT WE DO

We develop customized websites and mobile applications for schools and educational institutions with several features.

WHAT WE INCLUDE

It comes with 4 modules. A website for school, a mobile app for Parents, portal for student-teacher discussion, and a portal for management.

CUSTOMISED MOBILE APP

Get a customised mobile application for your school. Parents can now track their kids academic performance and class attendance in a better way! School can communicate with parents more effectively as well.

WHY ACCELERATE

Accelerate is not an ERP, but a smarter way for schools to manage students academic records and for parents to keep track of their wards' academic performance easily through their website itself. We integrate the school website, mobile application for school, and a web portal for students together, so that everything comes at one place.

Unlike the costly ERP Softwares available in the market, with Accelerate all your data is in cloud, which makes it accessible anytime, anywhere in the world.

Accelerate is light, covering all the essentials features like smart library management, students academic performance analysis etc. We focus on making things more smarter. It's cheap when you compare with other school ERPs available in the market. Pay only the operational and maintanance charges.

Accelerate includes several essential features like SMS Integrated Attendence Track System, Smart-code enabled Library Management, Students Performance Analysis and eProgress Report etc. These features comes as pro-features in other ERP softwares which is very costly and not worth for money. Where as, Accelerate bring all the features you need by default!

STUDENTS PROFILE
SMART LIBRARY
DISCUSSION FORUM
SMS INTEGRATION
ONLINE ADMISSIONS
PERFORMANCE ANALYSIS

WHAT OUR CLIENT SAYS

We never knew our school website itself can do much things. We stopped paying huge amount for ERP softwares - why should we continue when we have our website making things smart for us.

ABDUL NASAR
Principal, HMYHSS Manjeri

The mobile app built for the students community of Calicut Medical College is stunning. It's now very easy to broadcast news and events happening in the campus with the students.

Dr. ABHIJITH P S
Planning Forum Head, Calicut Medical College

WEBSITE AND FORUMS

We make a customized website with the most modern technology today. Essential features like, students profiles, new student admission management, sending SMS to parents etc. are integrated with in the website so that the school doesn't need to pay for an ERP separately. Just the website does everything needed for you!

BE SMART WITH ACCELERATE

Accelerate is a modern web-framework for schools, which is used to build customised websites and mobile applications, aiming to help schools be smart who can not afford costly ERP Softwares.
